## Long Term Care Software for Home Health Service Agencies

**How much time and money can managing your cases  
with FAMCare save you this year?**

As an adult services specialist, you provide an array of services to assist eligible elderly and adults with disabilities in preventing or delaying premature or inappropriate institutionalization. There are many different eligibility requirements and procedures to review for each client and many other agencies and organizations that have programs and services that can be accessed. The process can be time consuming, tedious and stressful. But it doesn't have to be...

### How Does FAMCare Help?

**FAMCare is a comprehensive case and care management software solution for residential and remote care management that facilitates the following:**

- ✓ Assists elderly and disabled adults and their caregivers to decide which community services they need **in order to remain living in their home!**
- ✓ **Simplifies how you identify providers**, set up services and offer changes when needed.
- ✓ Assess the individual's environment, social, financial and medical needs **faster and with more accuracy!**
- ✓ **Help to streamline the development of a care plan**, coordinate needed services, act as the person's advocate with various agencies and assist with caregiver issues.
- ✓ Help manage respite care **more efficiently!**
- ✓ Leverage a dynamic calendar system for home health aide visit tracking (**streamline scheduling!**)
- ✓ **SAVES TIME and MONEY!**
- ✓ Automate 837 electronic billing!
- ✓ Fully-secure data sharing capabilities.
- ✓ Electronic medical record management in one system.
- ✓ Regulatory compliance and risk mitigation.

### Better Data Collection & Reporting for Better Outcomes

As individuals grow older, their needs and lifestyles change. Environmental, social and medical services may need to be reassessed. You help by identifying resources before a crisis occurs and help individuals locate the most appropriate resources and services to best meet their need. FAMCare helps manage care coordination and service delivery.

FAMCare takes time-consuming and tedious processes and makes them simpler. Simplifying workflow is step one. Reporting is step two - where powerful adhoc query tools help you monitor, review and understand the information and how your programs are performing.

- **Fully-integrated** case and care coordination system
- **User-friendly and very configurable**
- **Flexible and scalable** for small to large organizations
- **Portable** – IPAD's, Tablets, Smart Phones
- **Includes:** Referral and Intake workflow, demographics, program enrollment, extensive monitoring tools, home health care visit and time tracking tools, case notes, care plans, geriatric mood scales, psychosocial assessments, IADL's, and ADL's, placements, care planning, electronic forms and processes; electronic billing (837/835, UBO4, CMS1500), in home care coordination, scheduling and more.

#### Reporting, Measurability, Accountability

*"FAMCare fully meets our expectations and we feel we made the right choice. The support we received from the GVT staff has been a value add for us. The flexibility of this product is key for us. "*
